

ERIC GEDDES LECTURE SERIES

ANNA KOOP

Senior Scientific Advisor

Alberta Machine Intelligence Institute (Amii)

Anna Koop (MSc & PhD Candidate) is Amii's Senior Scientific Advisor. Anna, whose research mainly focused on reinforcement learning, received her Master's in Computing Science under the supervision of Dr. Richard Sutton, one of the field's pioneers, and she is currently a PhD candidate working to develop algorithms for real-time learning in dynamic environments.

Passionate about making science accessible for all, Anna has developed and taught a wide range of computing science classes through the University of Alberta.
